Corporate or Business Cruises

For businesses planning a corporate event, taking a cruise can be by far the best value.

Today's cruise ships are specifically designed to meet every need a successful corporate event planner may desire.

Cruise ships have meeting and breakout rooms, video conferencing, state of the art audio-visual equipment and full internet access. Many of these services are available to corporate groups at no additional cost. Also having your group's hotel, meals and entertainment included is certainly more economical than the standard land based hotel meeting. Here are a few examples of some of our corporate groups

- Sales Seminars
- Executive Retreats

- Professional or Training Seminars
- Client or Employee Appreciation Cruises
- Corporate Meetings and Annual Outings
